FROM THE CHAIR

It has been a big year for the Melanie Jewson Foundation. We reached our 10-year milestone on April 14 and our celebratory and fundraiser event, **10 Years of Impact**, is planned for October 30 at Provenance Winery, Fyansford. Our Keynote speaker is the **Rev. Tim Costello**, one of Australia's national living treasures and our other special guests, include the Deputy Prime Minister of Australia and MJF Patron **Richard Marles MP** and **Dr. Sereana Natuman**, Head of the Medical Department at Vila Central Hospital. We are hoping to raise \$25,000 to support our work in Vanuatu as we enjoy an afternoon of exceptional food and drink, live music and stimulating speeches.

The other exciting achievement for us in the 2021-2022 year has been our registration with the Australian Charities and Not-for-profit Commission (ACNC) and securing Deductible Gift Recipient (DGR) status with the Australian Taxation Office. This means that we can now operate independently and provide Tax Deductions in our own name for donations of \$2 and above.

It's been an exciting year.

As the pandemic stabilised during 2021-2022, we were able to organise medical and educational resources to donate to the Vila Central Hospital and to various schools in Sanma Province, encompassing the islands of Espiritu Santo and Mala. We managed to donate just over \$63,000 in equipment - \$40,000 in medical supplies and \$23,000 for reading resources. The need – of course – remains, but we are excited by what we have achieved so far and about our plans for the future.

We are a dedicated team of volunteers who are passionate about supporting the people of Vanuatu and we are ready, with the ongoing and generous sponsorship from our donors, to continue our support for health and education in Vanuatu into the future.

Vanuatu needs us, and we remain thankful for your commitment to us and to the people of Vanuatu.

As we often say, 'we can always do more!'

Gary Jewson
Chair & General Manager | **The Melanie Jewson Foundation**

OUR PROFILE

Our Mission

Vanuatu faces severe structural impediments to continued sustainable development, including limited access to quality health and education. The MJF responds to this need by working with the people of Vanuatu to foster opportunities for improved health and education, essential to building a stable, sustainable and prosperous Vanuatu.

Our Vision

Advancing Health and Education in Vanuatu.

Our History

The Melanie Jewson Foundation was established almost eight years after the tragic loss of Melanie as her family searched for ways to ensure something positive could come from such devastating personal tragedy. Melanie's deep connection to Vanuatu led them to look for ways to support the people of Vanuatu. In response to the need expressed by key people at the Vila Central Hospital, funds were raised to construct a chapel on hospital grounds for the use of patients and staff. Through this process, Melanie's family developed strong connections with people at the hospital and in the community.

The Jewson family came to the realisation that they needed to find a way to provide a lasting legacy for Melanie, and ensure their work was sustainable and effective for the people of Vanuatu in the long term. In conjunction with the Belmont Rotary Club and Rotary World Community Service, the Melanie Jewson Foundation was formally established in April 2012.

The Melanie Jewson Foundation is family led. Melanie's parents, her brother and her sister, as foundational members of the MJF Board, work together with a dedicated team of board members and volunteers to make a life-saving and life-changing difference for people throughout Vanuatu by improving access to quality education and health services.

Who was Melanie?

Melanie was a gregarious spirit taken too soon. She loved the arts – she danced and sang – she was encouraging of others, gracious, and overflowing with potential. Tragically, Melanie lost her life in a car accident on 30th August 2004.

On a trip volunteering at the Vila Central Hospital in Vanuatu with her mum in 2003 – just 18 months before she died – 17 year old Mel was profoundly moved by the need she saw all around her and resolved to do something to help. She returned from Vanuatu to complete her final year at high school and during that year set about raising funds and equipment for the hospital.

This foundation honours the life that might have been Melanie's to live by developing her fledgling vision into something tangible for the people of Vanuatu. It has been a way for her family to focus their grief and a reminder that even the deepest despair can transform into something of worth; something fulfilling.

MJF OVERVIEW

About Us

The Melanie Jewson Foundation is dedicated to advancing health and education in Vanuatu.

The Pacific island nation of Vanuatu is under-resourced and faces severe structural impediments to sustainable development. Its health and education systems are in great need. [One in two Ni-Vanuatu children will not attend high school](#) and [the country's health expenditure per capita is less than 2% of Australia's](#).

The MJF responds to this need by working with the people of Vanuatu to foster opportunities for improved health and education.

Established in 2012 eight years after Melanie's tragic passing, the MJF continues the work she began as a passionate teenager with a needs-driven, partnership-based approach that is both respectful and ethical. This means that every project funded is driven by the self-identified needs of the staff of the school or hospital in question, as well as the Vanuatuan Government.

The MJF is guided by the [UN's Sustainable Development Goals](#) and [Vanuatu's National Sustainable Development Plan](#), and works through Memorandums of Understanding with Vanuatu's Ministry of Education & Training and Ministry of Health. We currently partner with the Vila Central Hospital and selected schools to provide equipment, resources, education and training supporting Vanuatu's under-resourced health and education systems.

The Melanie Jewson Foundation strives for a stable, sustainable and prosperous Vanuatu.

We can always do more.

Values

The following principles guide the goals, strategies and all activities of the Melanie Jewson Foundation:

1. Access to quality health and education are a basic human right.
2. We are response based.
3. We are culturally safe.
4. We practice responsible waste reduction and sustainability.
5. We are accountable to the people we support and the people who support us.

Our Process

The Melanie Jewson Foundation's donation strategy is based on the principles of ethical, needs-based donation of equipment and resources. This means that every project funded and item donated is driven by the identified needs of the staff of the school or hospital in question, as well as the Vanuatuan Government. We work hard to ensure that items are of an acceptable standard and fit the specifications required by schools and the hospital.

Government Partners provide services, assist with access and communication, provide local knowledge and support.

Ministry of Health

Vanuatu's Ministry of Health supports the work of the MJF with a Memorandum of Understanding.

Ministry of Education & Training

2021-2022 focussed on Sanma province.

A child at Vila Central Market, Port Vila.

STRUCTURE & MANAGEMENT

Governance

The Melanie Jewson Foundation has been established as a not-for-profit charity and is registered as a Public Benevolent Institution (PBI) with the Australian Charities and Not-for-profits Commission (ACNC). All donations of \$2 and above are tax deductible in Australia. A volunteer board of 12 oversees compliance, sets policy and guides the operations of the Foundation. Since 2012, the board has focussed its attention on supporting health and education in Vanuatu, with a strong emphasis on being committed to culturally safe responses and respectful relationships.

The Melanie Jewson Foundation is family operated, governed by a board of interested people and satisfies legal and financial regulations and requirements under Australian law and the ACNC. Currently, the Chair also acts as General Manager with responsibility for liaising with the portfolio managers for Marketing, Health and Education.

Our Board

The MJF Board meets at least four times per year and monitors financial accountability, overseas donations, legal requirements and approves budgets, fundraising initiatives and events.

Role	Name
Chair	Gary Jewson (Education)
Secretary	Elizabeth Jewson
Treasurer	Marian Wilson
Members	Andre Jewson (Marketing & Fundraising)
	Dr. Ashlee Jewson (Health)
	Joy Adcock
	Jan Baker
	Rob Baker
	Kay Buckland
	Peter Buckland
	John Donoghue
Andrew Dunbabin	

The Board operates on a regular cycle of four (4) meetings per year with each of those meetings focussing on a particular aspect, either for review, training or planning:

1. February: Governance review & training
2. May: EOFY & Budget setting

3. August: AGM, Annual Report
4. November: Strategic Review (SWOT on priorities)

A key role for the Chair is to ensure that the Board is well prepared for each meeting with a comprehensive agenda that schedules the receipt of regular reports from each portfolio (Finance, Health, Education and Marketing & Fundraising) and that the required governance tasks of the organisation are conducted in an orderly, compliant and efficient manner.

The Board completed a Strategic Plan in 2018 and all portfolio leaders report to the Board against agreed strategic priorities and targets to ensure that MJF activities align with the strategic directions set by the board. The board reviews its priorities at the November meeting each year.

Administration

Management and Executive Support

The MJF is a small not-for-profit organisation with a volunteer Executive team.

Key roles for management include:

- liaising with current partners to ensure their continued support.
- ensuring that communication with partners is regular and transparent.
- seeking out and establishing new partner opportunities for future support.
- ensuring all administrative tasks are conducted ethically, professionally and in a timely manner.

We continue to keep in close contact with our Patrons, the actor Martin Sheen and Hon. Richard Marles MP and appreciate their interest in the Foundation and the continued support.

Deductible Gift Recipient (DGR)

Since the establishment of the MJF in 2012, we operated under an auspice with Rotary Australia World Community Service (RAWCS) through the Belmont Rotary Club to ensure that donations to the MJF qualified for tax deductibility. We are enormously grateful to RAWCS and the Belmont Rotary Club for their generous and committed support to us and our work in Vanuatu.

During 2020-2021 we worked closely with Harwood Andrews through the process of gaining Deductible Gift Recipient (DGR) status. This was achieved in December of 2021 and the MJF is now registered with the ACNC and the Australian Tax Office (ATO) as a Public Benevolent Institution (PBI) and as such, is eligible to offer tax deductibility for all donations of \$2 and above in Australia.

We are deeply grateful to Harwood Andrews for their incredibly generous pro-bono support in achieving this for us.

Marketing & Fundraising

The MJF's Marketing & Fundraising department aims to support the work of the Health and Education teams primarily by raising the funds needed for them to do their work. It also prioritises the foundation's messaging and communication to donors/supporters/recipients.

This financial year, the priorities have been planning and design for the planned website upgrade, as well as the usual fundraising imperatives.

Nathan Harms of NH Creates designed a '10 Years of Impact' logo for use on all official collateral, including Electronic Direct

Marketing (EDM), brochures, website and stationery. The team completed a skeleton design of the new website, a fourth and final draft of MJF copy (which will be implemented across all platforms at the launch of the new website), ran an EOFY fundraising campaign, redefined the Foundation Partnership terms and maintained communications with MJF supporters.

With the support of Tim Price at the Indigenous Land and Sea Council, the team also secured a new domain – www.mjf.org.au. This more streamlined domain will be implemented in the second half of 2022 alongside the newly designed website.

The website, although in need of a complete redesign, continued to accept online donations throughout 2021-22. These donations are often one-offs in response to a specific campaign, but can also be set up by the donor to be made regularly on an automatic schedule. Marketing & Fundraising aims to continue to increase the regular donation base over the coming year to solidify incoming financials, giving the foundation a reliable source of income.

Marketing & Fundraising stays in touch with the MJF's community of supporters through targeted EDMs and social media. Each year it runs a fundraising campaign at the end of the financial year, targeted to either Health or Education. In 2022 unfortunately this fell short of expectations, raising just \$4,085 of a \$10,734 goal.

Marketing & Fundraising tries not to campaign too hard for donations, as the MJF's supporter base is modest (under 400 on the EDM list, 1.2K followers on Facebook). Communication aims to strike a pleasing balance between informative and petitional. Mentions of Melanie always garners the highest responses on social media. Converting this interest in the memory of Mel into MJF support is a constant challenge.

Due to the disruption of COVID, unfortunately the MJF wasn't able to hold its usual annual 'Spring Film' fundraising event in the second half of 2021. However planning did get underway for the foundation's '10 Years of Impact' fundraising and celebratory event, scheduled for October 2022

2022 end-of-financial-year campaign: How To Save A Life.

at Provenance Winery, Fyansford. Through the event the MJF intends to raise \$25,000 through ticket sales, silent auction, merchandise sales and donations.

The Marketing & Fundraising department looks forward to continuing to plan the celebratory event and broadening the MJF's supporter base into the wider community.

Our Objectives & Activities

Health Achievements

"The World Health Organisation's four principles of good donation are:

1. Ensure maximum benefit to the recipient
2. Respect the wishes and context of the recipient
3. The avoidance of quality double standards
4. Effective donor-recipient communication and planning"

– The World Health Organisation

MJF Health is committed to building long-term equal partnerships with staff at Vila Central Hospital (VCH) and flexibly responding to expressed and identified needs on an ongoing basis with the ethical and responsible donation of high quality equipment and resources.

The 2020-2021 and 2021-2022 health budgets were combined due to challenges of the global COVID-19 pandemic. Despite considerable logistical delays during this time, MJF Health has continued to build on our partnerships with the VCH medical, paediatric and emergency departments to purchase much needed medical equipment that is currently in transit to Vanuatu.

The previous Medical Department Head, Dr Sereana Natuman, has been instrumental in identifying life-saving equipment and consumables required by the medical department. This includes oxygen masks, stethoscopes, pulse oximeters and a second new Automated External Defibrillator (AED), to complement the AED donated in 2019. The medical department has requested that they extend our aid to a small rural hospital in Lolowai and are planning to on-gift some much needed equipment to their colleagues there. We are extremely proud to have been able to supply such critical and needed equipment.

MJF Health has also built on its partnership with the VCH paediatric department, working with the Paediatric Department Head, Dr Thyna Orelly, and the paediatric nursing team to provide

MJF-donated Rapid Assessment Kits packed and ready to be shipped to Vila Central Hospital, Port Vila.

much needed equipment and consumables including oxygen masks, ophthalmoscopes, otoscopes, stethoscopes, emergency airway equipment and infusion pumps that match and are compatible with the previously donated equipment.

We have received excellent feedback from both the medical and paediatric departments, stating that the donated equipment is put into use and has made a clear difference on their ability to provide care for their patients. MJF Health will conduct an evaluation process in-country following the arrival of the shipment to Vila.

Given the excellent feedback and success of our previous project with the VCH ED providing nursing packs to help with patient assessment and essential observations, we have been asked to repeat the initiative this year. MJF Health is proud to have been able to provide 50 nursing packs to Vila Central Hospital. The equipment donated is the same standard of equipment used in Australian hospitals emergency departments, and the nursing packs contain all the essential equipment required to monitor patients' vital signs, including stethoscopes, blood pressure cuffs, thermometers, glucose monitors, pen lights, and oximeters. The ED is planning to again use the equipment packs to run a fundraising campaign to upgrade some of their facilities.

For a full list of donated equipment, please see Appendix A.

Education Achievements

“Culture is central to learning. It plays a role not only in communicating and receiving information, but also in shaping the thinking process of groups and individuals. A pedagogy that acknowledges, responds to, and celebrates fundamental cultures offers full, equitable access to education for students from all cultures. Culturally Responsive Teaching is a pedagogy that recognizes the importance of including students' cultural references in all aspects of learning.”

– Gloria Ladson-Billings, American Pedagogical Theorist

Cyclone Harold in 2019 devastated many of the small communities in Sanma Province causing widespread damage and the loss of educational resources in already under-resourced schools. In response to the needs of the local schools, we were able to negotiate the replacement of early reader Literacy Kits with Read Pacific for 17 of the schools in the province. Each Literacy Kit contained 5 copies of 72 different culturally safe early learning readers and a Teacher's Guide in a storage box to protect them from humidity and wet weather.

With the generous support of Read Pacific NZ, the books were delivered to each of the schools in Sanma in February in time for the beginning of the 2022 school year. Due to our inability to visit Vanuatu, we were grateful of the support Read Pacific could give to ensure the books arrived at the schools they were intended for.

The seventeen schools, damaged by Cyclone Harold and receiving a literacy kit are:

School #	School name	Area/ Island	Province
1	Avunatari	Malo Island	Sanma
2	Taharo	Malo Island	Sanma

3	Nanuhu	Malo Island	Sanma
4	Banaviti	Malo Island	Sanma
5	Allowaru	Malo Island	Sanma
6	Jinaure	Malo Island	Sanma
7	Mwast	Santo inland	Sanma
8	Balon	Santo Inland	Sanma
9	St Augustin	Fanafo Inland	Sanma
10	Banban Center School	South East Santo	Sanma
11	Sarakata	Luganville	Sanma
12	Kamewa	Luganville	Sanma
13	Tata	South Santo	Sanma
14	Nasalanvulmol	South Santo	Sanma
15	Tovotovo	Fanafo Inland	Sanma
16	Mamara	South West Santo	Sanma
17	Ebenezer	South Santo	Sanma

A strong education system is crucial in any society, and this is emphasised by Goal 4 of the UN's Sustainable Development Goals which says: *'Ensure inclusive and quality education for all and promote lifelong learning.'*

17 bins full of books ready to be transported to Sanma Province.

The Melanie Jewson Foundation continues to emphasise and support the importance of improved literacy and numeracy schools during the foundation of schooling and is confident that this will lead to improved education, life and career options for the young people of Vanuatu into the future

It is encouraging to see that basic literacy and numeracy skills are improving in Vanuatu (ranked 50th in the world) however, education remains costly. Overcrowding and limited resourcing continue to

impact on learning, presenting significant challenges for classroom teachers who strive for effective learning opportunities for their students. Primary enrolment is healthy at 96% but at secondary level, this figure falls to 43% of potential students enrolled.

For a full list of donated equipment, please see Appendix B.

A child takes a bus, Port Vila Vanuatu.

OUR FINANCES

Treasurer's Report

The Melanie Jewson Foundation is a dedicated not-for-profit charity that relies on volunteers for all its administration and fundraising activities. We are grateful to our regular supporters and those who have responded so generously to our End of Financial Year campaign 'How to Save a Life'. Recent registration with the ACNC leading to gaining Deductible Gift Recipient Status in our own right has been an exciting development during 2021-2022, enabling us to support the need in Vanuatu more efficiently.

The gradual freeing up of movement internationally enabled us to effect sizeable donations in both health and education over the last 12 months. Due to our small size of our foundation and the necessary costs in running a foundation we use a higher percentage of our income on operations than we would like. As we grow, and our income grows, we anticipate this percentage to reduce.

Auditor's Statement

Year Ended 30 June 2022

I report to members that I have reviewed the financial records of The Foundation for the year ended 30 June 2022 and the accounts extracted from those records are attached to this report.

The Statement of Receipts and Payments reflects accurately and fairly the activities of The Melanie Jewson Foundation for the year ending 30 June 2022.

As is common with many volunteer and not for profit organisations there is not the normal division of responsibilities in the various financial roles within The Foundation and so records are of a standard not acceptable in larger commercial organisations.

With these provisos I am satisfied that the appropriate records of financial transactions are maintained by The Foundation.

Andrew Dunbabin

Fellow of The Institute of Chartered Accountants in Australia (Retired)

OTHER INFORMATION

Acknowledgment

The MJF cannot function without generous donations from our supporters and partners who either donate money, time or resources to aid the people of Vanuatu and to honour the memory of Melanie. We are very grateful for this sponsorship, and we commit to ensuring the ethical use of our finances so that the maximum support can be given where it is needed most. We are also grateful to the members of the Board who have given much of their time in supporting the MJF over many years. Again, we could not function without them.

We are also grateful to Harwood Andrews and the work they generously gifted to the MJF in assisting us in achieving DGR status in our own right.

The future looks bright for The Melanie Jewson Foundation.

How You Can Help Us

For our important work to continue, regular donors are critically important partners enabling us to effectively plan the types of support we can provide. The need is great, our passion is great, and the change we are aiming for is also great.

To achieve these lofty ideals, we require you to support the MJF and its work by attending our events; telling your colleagues, your friends and your extended family; making a regular donation; or even speaking to someone you know who may be keen on becoming an Industry Partner.

Every donation, either large or small, may save a life or help a child learn to read and open a door for them that leads to a better future for them and their country.

Looking to the Future

The MJF is planning to increase its support of health and education in the coming years so that we can make an appreciable difference to the people of Vanuatu. Our vision for the MJF, and for Vanuatu, is to build on the partnership we have with the Ministry of Health so we can, together, improve service delivery in the hospitals which will have a positive impact on the health and wellbeing of all in the community.

In addition to our work in the health sector, we plan to increase our support to schools in other parts of Vanuatu so that a greater number of students can have ready access to quality resources, giving them the best possible chance of being able to gain further education and have better opportunities for employment in the future.
